Many thanks to the letters and money you all have sent. The clan really enjoys hearing from you. By sending in your news about your births, marriages and unfortunately deaths; these can be shared through the NewsLetter distribution.

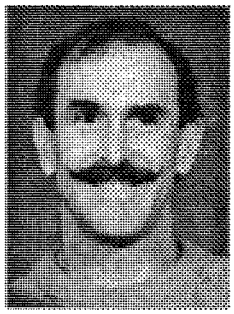

Patsy's 1st

On February 27th, 1995, Elizabeth Renee was born to Jennifer Michelle (Smith) and Shawn Dale Congor weighing in @ 6 lbs 12 ozs. This is Patsy Ruth (Rolan) Lehew's first great grand child and Cindy Ione (Lehew) Smith's granddaughter. Congratulations and best of luck to the family.

Traffanstedt Visit

In February, Audry (Brune) Johnson had a visit from John (Anna Beatrice's son) and Joan Traffanstedt. They were visiting Rockdale to look up John's birthplace. With Audry and Buddy's help, they found it. John was born on the campgrounds. It was great to relive his early days here prior to moving to Mineral Wells. They also found the old fireplace to AJ Rolan's home place located on the hill.

The Annie Mary (Rolan) Butterfield Story

By Dawn Hyde

Mother, grandmother, neighbor, midwife, sister, aunt. Annie Rolan Butterfield was many things to many people. But the thread that wove through it all was love; love of God, her family, neighbors, plants, chickens. Everyone who passed through her world came away a little richer. Maybe it was the smile and a hug, a good meal, or a helping hand in time of trouble.

Annie Mary was born on January 10, 1889 in Caldwell; Burleson Co. Texas to Andrew Jackson and Ellen (Wallen) Rolan. Her grandfather; Richard Jackson Rolan was from Scotland. Grandfather Charles F. O. Wallen was from Sweden. Great grandparents (Ellen's) Allen and Nancy (Pullen) Jones were from Mississippi; James and Ellen (Decker) Lee had been in Texas since it was still Mexico. The world Annie was born into was unimaginably different from today. There were just 63 million people in all the 38 states of the Union. William McKinley was in his first presidential term, and the Civil war had been over only 24 years.

Annie was the fourth of AJ and Ellen's fourteen children. When she was born, her oldest sister, Minnie, was 4 and the twins; Isaac and Eliza just over 2 years old. Annie went to school for a while at a small neighborhood school, but when Liza had gone as far as she could in school, Annie had to quit too.

On March 4th, 1906 at age 17, Annie married Richard Lee Butterfield; her second cousin (his mother Betty and her grandmother Kitty were sisters) who lived down the road. The story is that Richard rode up with a horse and wagon. Annie's mother tried to keep Annie from leaving but, she ran off the end of the porch, left with Richard and got married.

NewsLetter

As you might have noticed, the NewsLetters are getting fewer and farther between. One of the reasons is that I am running out of things to publish. Sure, I could have a NewsLetter of just pictures, but the meat is the stories we have to tell about our family. I know it takes time. It takes time away from the things we normally do. But, if we don't take the time soon, a generation of first hand information will be lost.

This is the case with my wing of the clan. The James B. Rolan family is piecing together Jim and Nettie's life but, my grandparents aren't here to help us.

I am sorry to say, if no more stories come in, there will only be one or two more Rolan Family NewsLetters. We still need stories from the following family branches: Lillie Pearl Parker, Rosalyn Beard, Charlie Richard Rolan, Jarome Kirby Rolan, and the list goes on.

CampGround Property

The way into the property has not changed for the people coming past Alcoa, through the plant and along the 1 mile of gravel road. For the rest, unless we can get the gate opened in front of the campgrounds, the "new" road Alcoa put in through the sand hills will have to be used adding many miles to the trip.

The lane leading into the campgrounds has been washed out and is almost impassable for cars. Alcoa has promised to repair and maintain this lane as an easement for our access. So far it has not been done. The bottom line is that the road will be fixed in time for the Reunion. Just in case, bring your shovels and picks.

Remember the property has signs and a gate installed by Alcoa. The gate is locked, but we have unlimited access. For the lock combination, call the following persons:

THE WORK WEEKEND

The Campground's Memorial Day Work Weekend turned out to be a recoup. The team consisted of Diana Ray (Rolan) and Marvin Mitton, Maggie Miller and John Terry and Paul Rolan. What I mean by recoup, is fixing the things vandalized or stolen.

In the past we have had the water system disabled by someone stealing or using the water faucets for shooting practice. Well, the brand new brass faucets were gone again. When we bought new ones this time, I also bought plastic plugs. During the winter we will pull the faucets off and replace them with the plugs; more work but less recurring cost. The replacement faucets will be in the old freezer behind the cook shack.

That was the obvious theft. When Maggie and John arrived, John and I got busy working. Maggie scouted around. I had noticed something was different between the Bathrooms and the water barrel, but I couldn't identify what. Maggie did. Someone had stolen the concrete picnic table. A truck was used to haul it away through the locked gate. Alcoa was immediately suspected. Security was called along with Ricky Gaines (Alcoa lawyer) and the Sheriff. As expected nothing could be found.

One of the long concrete tables had also collapsed; no obvious signs of vandalism. I guess we can be thankful that nothing else was taken or destroyed and the sheds survived another year without collapsing.

Back to the work weekend. Supplies had previously been bought to repair the meeting shed, but they weren't enough. An expensive supply ($50–$60) run to into town resulted in enough parts to work on the shed, hot water in the bathrooms and replacement faucets.

We all teamed up for the shed's overhead repairs. Afterwards, Marvin worked on the vertical supports while John & I worked on the Bathroom's hot water plumbing. My mind wandered to the workers who built these structures, the old times, how long it took, and how well they were built; strong but inexpensive.

With the hot water lines run and the faucet lines plugged, a water pressure test showed no leaks in the new lines and waterheater. YEA! YEA! We started on the water heater's electrical when we came onto a snag. The name plate said 220v, it was supposed to be 120v. With our energies and time fading away, we decided to save the electrical for another time. No hot water unless someone gets up there early for the reunion.

Oh yes, one of the men's commodes is out of commission. We need a new reservoir or replace the whole thing. This is probably more important than the hot water. You don't have to take a hot shower, but you do have to; well you know.

GENEALOGY/ MAILING LIST

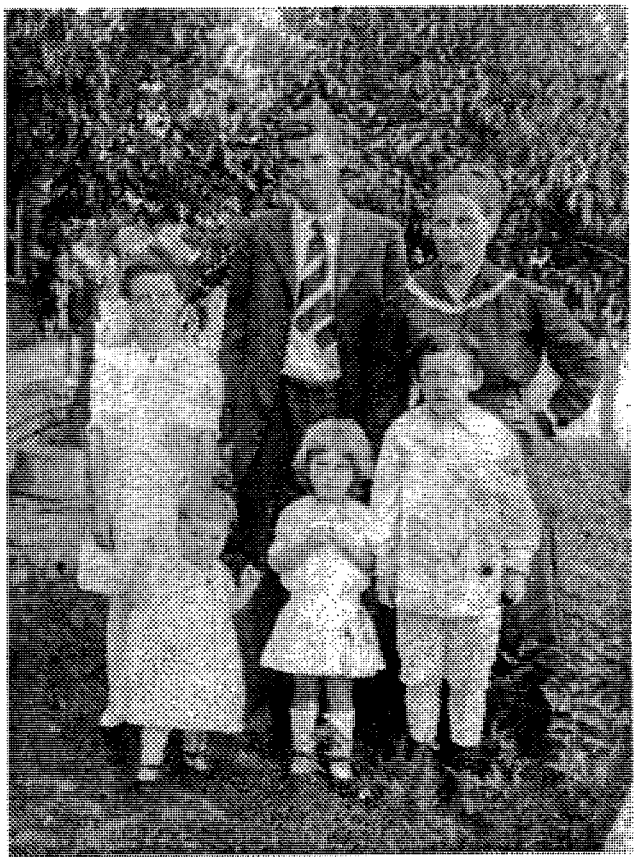

There is still about 75 names with incomplete, incorrect or missing address information. If anyone wants a total genealogy listing let me know. A printout of all entries (almost 900) would cost about $1.65 to mail. A computer disk with the dbase file would cost about the same.

The mailing list is a subset of the 900 genealogically-ordered names which only includes descendants over 18, that have a complete address (normally one NewsLetter per address to keep the mailing cost down) and have not had their previous NewsLetter returned (bad address). If the descendant has died, a effort is made to keep the spouse informed with a NewsLetter.

The following NewsLetter were returned. Does anyone know their new address or any info on them?

Annie's Story

continued from page 1

They Lived In Milam Co, mostly around Rockdale and Cameron. In 1907, their first child Oma Narcissus was born. In 1908, Bertha and 1910 and 1911 sons Richard Henry and Lewis were added to the family. Tragedy struck in 1912 when Lewis died; he was buried in Salty cemetery.

In late 1913, Richard, Annie, and their children moved to Arkansas along with Richard's family. His father; Richard Henry, his sister; Cherry Morrison and her children, his brother; John James, wife Geneva, and newborn Nesa loaded everything on wagons and started from Thorndale. They got as far as Cameron where they had to stay for several weeks until flood waters receded. They rented box cars on the Sante Fe line and loaded wagons, livestock and household goods. The families went by passenger train to Texarkana, Camden Ar. then on to Smackover Arkansas. While they were there, oil was discovered and Smackover changed from a little village in the pine woods to a tent city of thousands.

While in Arkansas, five more children were born. Annie, Eva Belle, Opal Gertrude, Ruth Adele, James Norman and Ruby Lucille. Oma, their oldest, was married there in December 1921 to George Clawson.

Richard and Annie had made some money in the oil strike and in 1922 came back to Texas. When Annie left, she left behind three of her children. One was married and expecting her first child. Bertha and Norman had both died; she at 9 and he at about 1 year old. Both were buried in the Cross Roads cemetery. Early in 1923, they and baby Ruby went back to Arkansas to visit their first grandchild; Lee Croy Clawson.

In Texas, they made their home first at Rockdale, then about 1924 moved to Friendship where the last baby; Edna Elsie was born in 1925. From there, they moved to Bryant Station in 1926 or 27 and bought the McFarland place where they lived until 1940; except for a short while in Batte Town (Richard worked for a year as the County Surveyor).

They had one of the few phones in the area. Everyone in the community came to use it in an emergency. They also had the first radio in the community. On Saturday nights, Richard would run the antenna and ground wires outside, hook the radio to a charged car battery, and the family and friends would listen to the "Grand Ole Opry."The children went to the Bryant Station school, played baseball, helped with raising crops and animals, met and married neighbor boys and started families of their own. And Annie? -- she was helping people literally from the cradle to the grave. She was the area's midwife; helping to deliver even some of her own grandchildren. She also helped to "lay people out." That meant bathing and dressing the body and preparing it for burial. She was always ready to go to anyone needing her help. The home place was sold about 1940. Although Richard was well known for his ability to find where to dig for water by "witching" with a green forked stick, he never found the right place to dig for a good steady supply of water there.

Over the next several years, they moved around a lot. In 1942, they lived in Belton and raised hogs on food scraps from the army at Ft. Hood. The youngest daughter graduated from school and got married in 1943. They moved to the Secrest place in the Little River bottoms near Bryant Station and stayed there for several years. This was in the middle of a pecan tree groves that the grandchildren loved. Their visits usually resulted in green and black fingers from picking and trying to eat green pecans. In 1953 they moved to the Loftin place a few miles east. It was here that Richard and Annie celebrated their 50th wedding anniversary in 1956.

Annie's Story

continued from page 4

About 1959 after Annie had a slight stroke, they moved to Cameron and stayed until Annie passed away on October 20, 1971 at 82 years of age. At that time there were 39 grandchildren, 97 great grandchildren and 4 great great grandchildren.

When Annie's family thinks of those years, they remember her in the garden growing anything and everything, feeding chickens, crocheting, sewing, making quilts, and always flowers around her. She loved all flowers and could grow anything. Richard would go off on trips to Arkansas, but Annie wanted to be in her own home.

Although Annie lived to see jet planes, space exploration and a modern technological world, the world she spent most of her life in was based on the land. Family centered around the land; planting, growing, harvesting, preserving food, raising cows, pigs, chickens, corn and other crops to feed the animals, cotton and whatever else could be sold to provide a little cash to buy whatever they couldn't grow.

So memories of Annie are tied to the land and home. Her children remember her baking bread every day and timing it so it was hot out of the oven when they got home from school. How she would talk to her chickens and pick grass to feed them. How she could look at a dress in a Sears-Roebuck catalog. Cut out the material and sew it together; without a pattern. And how they learned respect for God, life, and other people, honesty, and right from wrong. Annie did not complain about her lot in life, she took what she came with; grace and courage all the while trying to encourage others. She quietly bore the burden of grief for the children she had lost.

Grandkids remember when she came to visit going to find a "spit can" for her snuff dipping. She did love to dip snuff. And going with her to the woods to find "leaf mold"; rich soil to use on her flowers. And her smile, and in later years how she'd hold her stomach when she laughed because it would literally shake with laughter. Remember the delicious black sorghum syrup; so good on that hot home made bread. Sitting on her lap, safe and sheltered. And above all, never doubting for a moment that we were very much loved by our beloved "Grandma." Grandma, we miss you.
